**To Whom it may Concern:**

**Reference:** Manan Patel

I am writing this letter as a professional reference for Manan Patel.

Sabrina and I met Manan during our frequent visits to our local corner store, and as well, the 7-11 store that we frequent. We have enjoyed Manan's exemplary personality and service during the past year. I would strongly recommend Manan for employment as part of any software programming team. Manan has proven himself to be an outstanding customer service representative, and we have always been impressed with his customer focused service.

Manan possesses a very pleasant and good-tempered personality. He is professional in the performance of his duties and keeps himself calm in hectic situations. Manan is very motivated and consistently demonstrates that he is eager to learn. He constantly studies and develops programming projects between his customer activities.

I offer my assurances that he will be a wonderful addition to any team or project environment. If we had any programming positions currently available, I would not hesitate to immediately hire Manan.

Please let me know if I could supply any further information in support of his employment endeavours. I can be contacted at the numbers below, or on my cell at 905.730.5995.

I wish him all the best in his future endeavours.

Sincerely,

David A. Norris  
General Manager

**Reference:** Manan Patel

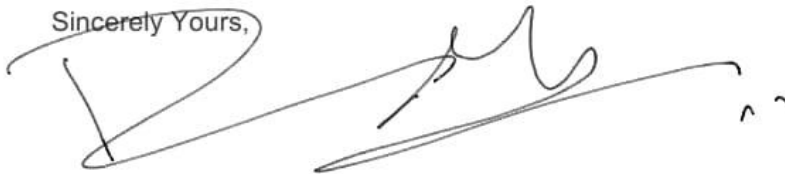

**Dear Hiring Manager,**

I am writing this letter to recommend Manan Patel for the position of software developer (Co-op) at our company. Manan is a student software engineer at mohawk college for over four semesters, and his skills and knowledge is unparalleled. Along with that, however, he brings an energy and dependability whenever I meet him. I have no doubt that he will find a very lucky development company who will hire him and benefit from his talents.

In his career, Manan has designed everything from Lottery Generator application to some apps and games using JavaScript, C#, etc. He had recently started to convert his Internet applications into mobile applications. I saw his programming skills on his GitHub account and has proven to be just as efficient at that as he is at the rest of his job.

Manan takes a great deal of pride in what he does and he works very hard to achieve the exact results that the customer is looking for. He is dedicated, intelligent, responsible and he has never missed a deadline for completing assignments. If you need further insight into why Manan should be your next software developer, please feel free to call me at 905-383-2264 or email me at [stephencross@email.com](mailto:stephencross@email.com).

Sincerely Yours,
